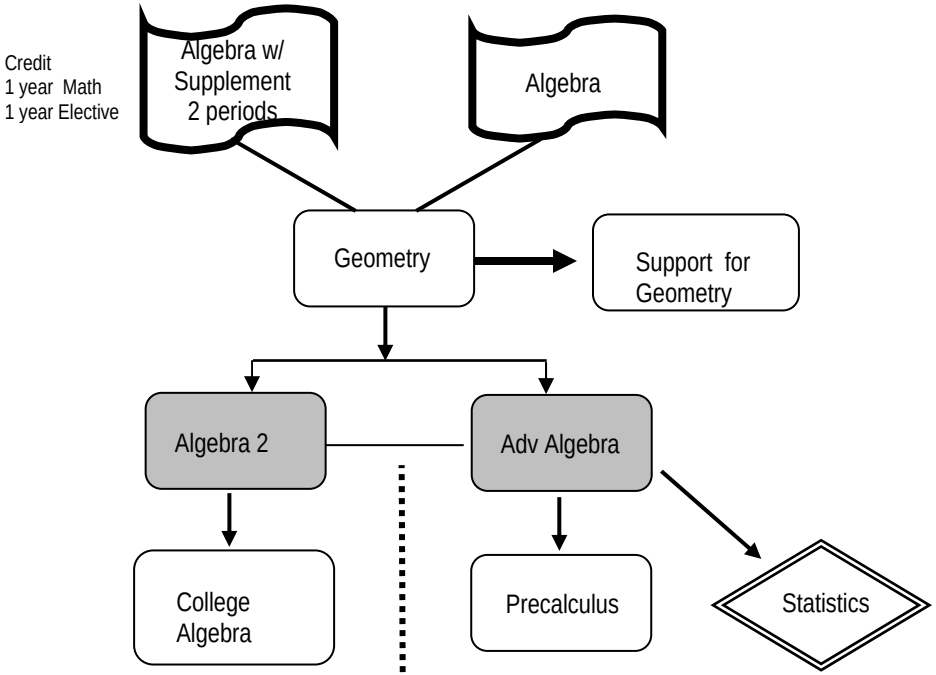
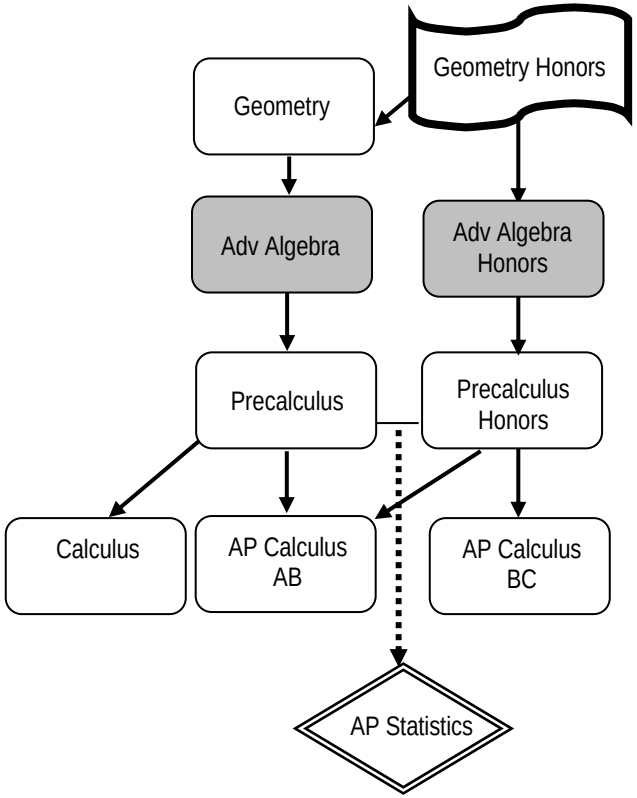
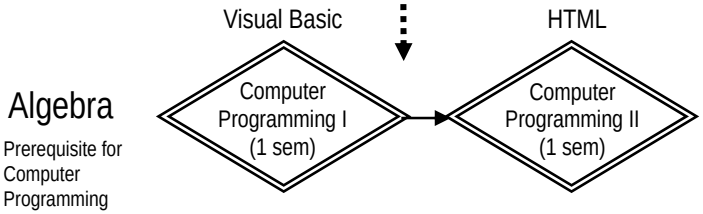
Addison Trail - Math Course Listing Diagram 2015-2016

Core Track



Accelerated Track





Algebra

Prerequisite for Computer Programming

Computer Programming can be taken concurrently with other math courses if the prerequisite is reached. Also a student may take Computer Programming 2 without having taken Computer Programming 1.

Indicates typical starting points for a freshman. This is based on teacher recommendation and placement test (Explore) scores.

Solid lines indicates typical sequences. ◇ and dashed lines indicate courses that can be taken simultaneously with other math courses.
