

The Special Education Departments in DuPage High School District 88 are committed to providing a comprehensive education to all identified students in accordance with their handicapping condition. It is believed that with appropriate curriculum and support services, all students can become life-long learners. Special Education has a critical responsibility to provide a structure that allows equal opportunities for all students, tailored to their individual needs. A major focus of each of the programs is to assist the students in developing needed skills including academics, self-advocacy, vocational and life skills to allow for a successful transition from school to adult life.

Parents or students interested in knowing about the programs and specific classes available in District 88, should contact the Director of Student Services...
