I would like to share my Good Samaritan story with you from Jan. 20. I was in Villa Park going to a store in the 1-100 block of E. Park. I am a 76-year-old disabled woman who walks with a walker, but I do my best to be active My friend had dropped me off by the store while she went to park her car. Usually, I am able to manage to get into a store, but this store had a step and the door was on an angle so it was awkward for me. While I was trying to figure out how to get into the store or wait for my friend, a white service or work truck stopped and a man got out and approached me, asking if he could help me. I thought maybe he was making a delivery, or certainly had a work-related reason to be there. I accepted his help and thanked him a few times but realize now that I should have thanked him even more. He held the door while I got in. When my friend came into the store, she had seen him helping me and said he just got back into his truck and drove away. We both think that he saw me struggling, stopped his truck and came to help me. What a good person! What a kind gesture!

I heard an economist talking about egg prices. He said the sharp increase is partly due to bird flu, so while the demand is still there, the supply is down. Plus, the cost of feed has gone up, so that cost is being passed on to the con-sumer. So far, understandable. However, he then said that some chicken farmers are "padding" their costs when adding in the increased cost of feed, kind of hidden in the increases they are charging. He said there are also those who are hiking prices in "anticipation" of future costs, whether or not the increases happen. He said oil companies are known for that as well. So, when you think about paying \$7 for a dozen

eggs, and I have seen it even higher, know that there is more to the story.

Our far-left vice president is rightfully taking heat for part of a speech she recently gave that quoted the Declaraand the pursuit of happiness." How-ever, she conveniently left out "life."
While I didn't agree with overturning Roe v. Wade because I don't want the government to have control over an-other person's body, what about the life of the unborn, and its right to the pursuit of liberty and happiness? Here is a concept for "choice": With the exception of rape and forcible incest, he about choosing not to get pregnant in the first place? And that includes men making a choice.

I think it is very important for all news media to publish Sheriff Mendrick's statement on gun enforce-ment. Once again, the politicians and mainstream media want to craft the facts to their agenda. The problem is generally people are still gullible and believe these stories. How about making tougher penalties instead of taking away guns? Maybe bring back the death penalty.

Will more people admit that our country's COVID-19 death statistics are bogus? There's a difference in dying from COVID and dying with COVID. If COVID hadn't arrived in 2020—an election year—I think things might have been different. I think it's clear that Democrats and the media. used COVID to get rid of Trump.

Import Chicago. Elect Chicago. Be-come Chicago. Thanks a lot, DuPage Democrats, for contributing to our ar-ea's decline. Looking forward to more armed robberies, carjackings and catalytic converter thefts in the suburbs in 2023.

The DuPage County sheriff made public comments about enforcement of the recently passed Protect Illinois Communities Act, assault weapons ban. Because of that, the county board chairwoman wants to formally censure him. Leave politics out this. The criminals don't care what laws are passed; they ignore all of them. These laws punish the citizens who follow the law. When the Illinois Supreme Court finds this act unconstitutional, will the chair woman retract the censure and apolo-

It is amazing to me how the media fawn over these politicians who have no clue what is in the U.S. Constitution. Worse yet, people voted for them.
The charade of Sean Casten and other elected officials to chastise the DuPage County sheriff was a sad reflection on these elected officials, Grandstand without any knowledge of what you are saying, and the media paint you as a darling rather than a fool.

Hi neighbors. I sure did enjoy all your holiday decorations. Holidays are over, please consider putting them away so they are something "special" for the next season. Thanks!

Saturday morning (Jan. 21) I was watching the news on TV-about the

teachers strike at UIC. Once you he that it's for the children, you know th all they want is more money. The came right out with it. They wa more money. That's fine. But whe ever you hear a politician or a teach say it's for the children, all you kno is they're most likely lying. So dor support them. That's why the count is in what it's in today. Thank you.
